

# FRAMING CONFIGURATION – Configurations

Modified on: Tue, 2 Feb, 2021 at 7:28 PM

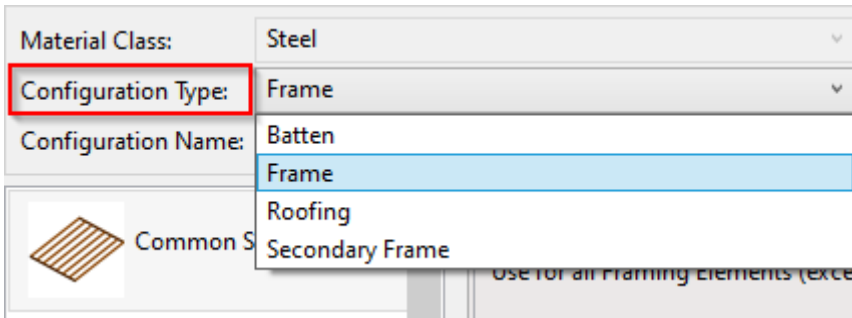

**Framing Configuration** may be found in two locations:

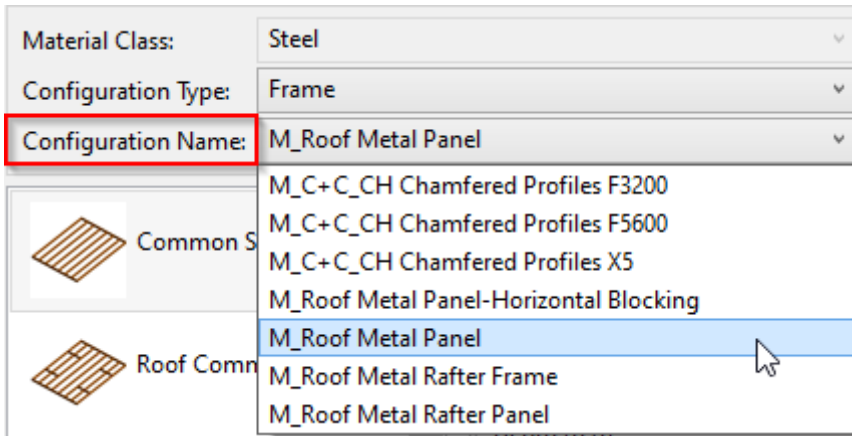

OR:

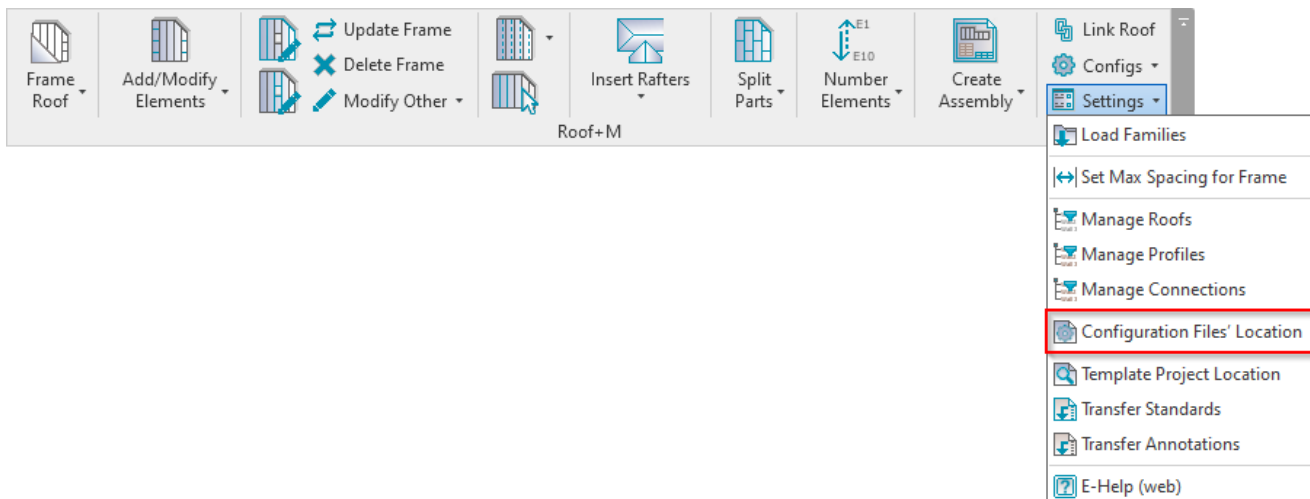

**Configuration Type** – choose the type of framing you want to configure. The possible options are: **Frame, Secondary Frame, Batten, Roofing**:

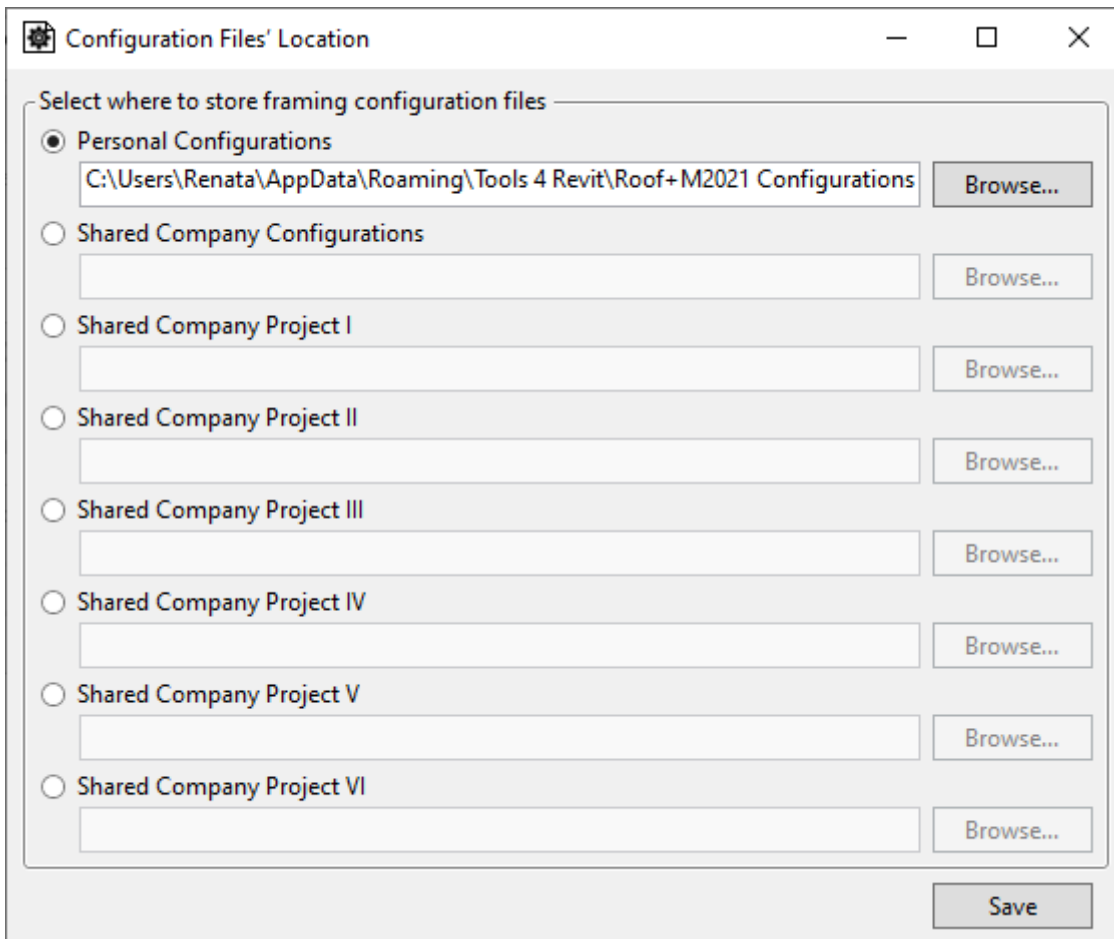

**Configuration Name** – configuration with all framing settings. You can use sample or create new configurations. Also, you can rename or delete the existing configurations.

By default, **Roof+M** framing configurations are saved in *C:\Users\user name\AppData\Roaming\Tools 4 Revit\Roof+M2020 (or other version) Configurations\Framing Configurations\Imperial or Metric* catalog. The content from this catalog can be copied to other users' computers if needed. Also, the path can be changed in **Roof+M** → **Settings** → **Configuration Files' Location**.

| C:\Users\Renata\AppData\Roaming\Tools 4 Revit\Roof+M2020 Configurations |                  |             |
|-------------------------------------------------------------------------|------------------|-------------|
| Name                                                                    | Date modified    | Type        |
| CustomFramingJoins                                                      | 2019-09-12 19:06 | File folder |
| Details Configurations                                                  | 2019-09-14 17:23 | File folder |
| <b>Framing Configurations</b>                                           | 2019-07-31 20:14 | File folder |
| HipValley Configurations                                                | 2019-07-31 20:14 | File folder |
| Mark Configurations                                                     | 2019-09-14 17:30 | File folder |
| Numbering Setup Configurations                                          | 2019-09-12 20:29 | File folder |
| Part Configurations                                                     | 2019-07-31 20:14 | File folder |
| Sheathing Configurations                                                | 2019-07-31 20:14 | File folder |
| Workshop Configurations                                                 | 2019-09-15 17:52 | File folder |

One framing configuration contains a folder and an XML file under the same name:

|                     |                    |
|---------------------|--------------------|
| Material Class:     | Steel              |
| Configuration Type: | Frame              |
| Configuration Name: | M_Roof Metal Panel |

C:\Users\Renata\AppData\Roaming\Tools 4 Revit\Roof+M2020 Configurations\Framing Configurations\Metric

| Name                                   | Date modified    | Type         | Size   |
